Complete Rigging Solutions

Complete Rigging Solutions

With Clancy, it's simple to get exactly what you need.

Power Flying

We build hoists for virtually any application, venue or performance requirement. Clancy hoists are built to the highest standards of quality including dual brakes, load monitoring, and vibration isolation. Our hoist options include:

PowerLift® — The industry standard in zero-fleet design; available in fixed and variable speeds up to 240 fpm, travel to 62' and up to 2,000 lb. load

Titan Hoist™ — The newest addition to our line of zero-fleet hoists; up to nine lines, 0 - 400 fpm, 92' travel, 2,865 lb. load

PowerAssist® — Converts manual sets to computer controlled powered sets; fixed and variable speed to meet your needs for scenery, lighting and acoustic ceiling sets

PowerLine™ — Clancy's line shaft hoists combine economical design with top end performance; custom built to your specifications at "off the shelf" pricing

Custom Hoists — Designed and manufactured to meet any requirement

Control Systems

Power flying requires the best in controls for safety in operation. Clancy has a complete line of control systems from push-button to 3D touch-screen consoles. All of our SceneControl® systems are designed for ease of use and maximum reliability for use in the demanding backstage environment.

Manual Rigging

Clancy practically invented the counterweight rigging system, and we have thousands of sets lifting loads safely worldwide! If you need a capital cost-effective solution, manual rigging can be the answer.

Custom Solutions for All Your Motion Needs

With Clancy you can source everything from one vendor: stage lifts, overhead rigging, seating and scenery wagons, acoustical curtains and chambers, adjustable prosceniums — with all movements controlled by a single control system.

Design, manufacture, and installation of theatrical equipment worldwide.

Your Single Source

You can obtain the performance motion equipment you need for your facility, simply and economically, from J.R. Clancy. With a worldwide dealer network, an extensive equipment line and over 125 years of experience Clancy is the answer to the question “can I get it all from one supplier?”

Committed to Quality

Clancy isn't a consolidator — we design, engineer and manufacture equipment in-house to meet the most rigorous standards. By keeping control we can assure you of the highest quality. In fact, Clancy is the only North American full-line theater equipment manufacturer that is ISO 9001 certified.

With a company-wide dedication to excellence, you benefit with service and orders that are *on-time, complete and correct*. You also benefit with exceptional equipment backed by our industry leading three-year standard guarantee.

Extraordinary Project Management

Rigging projects are often complex, and even the smallest conflicts or errors in scheduling, design, and manufacturing can be costly. When you choose Clancy, you benefit with award-winning Project Management for seamless production from inception to installation.

A dedicated Project Manager is assigned to oversee every facet of your project. From design and drawings (all done in-house, and provided at no extra cost) through manufacture and performance testing, your Project Manager ensures your installation will be a success.

For more information about our Complete Rigging Solutions visit us online at www.jrclancy.com or email us at info@jrclancy.com.

With over 50,000 projects completed worldwide, you can count on Clancy for the rigging solutions that meet your artistic, technical, and budget needs.

*“Provide solutions and
quality equipment.
Make sure it works.
And if people have
a problem, solve it
immediately.”*

*Mike Murphy
President*

Rigging Experts for Over 125 Years

J.R. Clancy has been designing and manufacturing rigging and theatrical equipment since 1885. Our clients span the globe.

We provide everything from simple stage hardware to highly sophisticated power rigging systems for theaters, concert halls, arenas, churches, casino showrooms, opera houses, and even cruise ships.

Recent customers range from *Princess Nora University* in Riyadh, Saudi Arabia to *Orange County Performing Arts Center* in Costa Mesa, California and from the *Palladium Performing Arts Center* in Carmel, Indiana to *Theatre Nacional de Catalunya* in Barcelona, Spain.

There is a simple reason for the company's extensive client list and longevity. "Provide solutions and quality equipment. Make sure it works. And if people have a problem, solve it immediately," says company president, Mike Murphy.

J.R. Clancy is the only full-line theatrical equipment company in North America that is ISO 9001 Certified. This commitment to quality is evident in our unique guarantee where we promise that your equipment will be on-time, complete and correct. Period.
