

SureTarget 10
050-ST10

SureTarget 10 provides speed and position control for smaller automated rigging systems.

SureTarget 10 Features:

- Simple, accurate speed and position control for 1 - 10 sets (speed control requires variable speed hoists).
- Easy-to-read color, touch screen display.
- Eight presets for each hoist, with programmable acceleration, deceleration, and speed.
- Direct up/down push button control for setup.
- Joystick for adjustment on the fly.
- Load monitoring “learns” a new load, and senses any changes (requires hoists with load sensing).
- Reliable industrial grade components.
- Optional hand held remote.

Safety

- Motion is controlled by “dead man” push buttons, to ensure an operator is at the console.
- Industrial grade processor and components are used for long term reliability.
- Key operated switch, and hardwired E-stop.

Ordering Information

Model	Description
050-ST10	Wall mount, beige cabinet
050-SCP	Hand held remote with cable & receptacle
