

**Outrigger Bracket
015-96**

- Used to support outrigger battens in front of the Guide Wall.
- Use 015-67R Pipe Batten with these brackets to form the outrigger.
- Outrigger battens are used to support index lights or act as a scenery bumper.
- Use on 10' (254 m) maximum centers.
- Optional 6" x 6" (152 mm x 152 mm) wall plate with 12" (304 mm) sleeve available to attach batten end to a wall.
- Brackets typically attach to J-Guide, A-Guide, or T-Bar Guide wall battens.
