SureGuard II
FIRE CURTAIN RELEASE SYSTEM

- ▶ Allows fire detection systems, such as rate of rise heat detectors, smoke detectors, or other electrical signals to automatically release the fire curtain
- ▶ Integral battery and charger allow the unit to function during power interruptions
- ▶ Positive release mechanism resists jostling to reduce false tripping
- ▶ Sealed lead acid battery enables longer protection in the event of power loss
- ▶ Accommodates sensors with either normally open or normally closed contacts

J.R. Clancy Product No. 016-970

Manual Lever Release & Enclosure

- ▶ Simple, positive method of releasing the fire line to close curtain in case of fire

- ▶ Easy to use and resists jamming

J.R. Clancy Product No. 016-14L

Optional Enclosure

- ▶ Features sturdy steel body and clear acrylic cover allowing clear view of release lever
- ▶ Integral hand grip allows cover to open easily in the event of fire, and protects against accidental activation
- ▶ High contrast lettering on cover eliminates the need for separate fire release sign

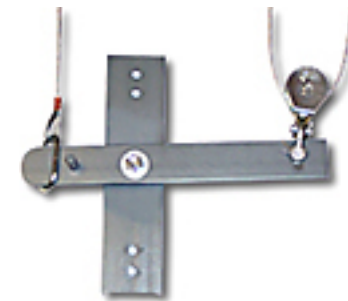

J.R. Clancy Product No. 016-14EX

Fire Curtain Arbor Release

A new, simple fire curtain arbor release to replace the free end ball:

- ▶ The ring and line on the left are attached to the bottom of the arbor, keeping the curtain open
- ▶ The lever is held in place by the fire line (at right)
- ▶ Once the fire line is released, the lever pivots, releasing the arbor and allowing the curtain to close

For More Information
