

**Heavy Duty Traveler Track  
024-280**

- 14 gauge galvanized steel box track in 20' sections.
- Manual or motorized operation.
- Can be used for bi-parting (traveler) or one way operation.
- Choice of several carrier wheel/body types.
- Carriers for heavy duty track have ball bearings.
- Carriers equipped with swivel and trim chain (chain on 280 tracks only) for hanging curtain.
- Carriers for heavy duty track have rubber bumpers to reduce noise.
- Optional back packing operation eliminates on stage bunching while opening.
- Tracks are supplied complete with all necessary accessories (CWANA), including master carriers, one individual carrier per foot, live and dead-end pulleys, end stops, hanging clamps, operating line, and adjustable floor pulley.
