Guide Systems

J-Guide

Aluminum arbor guide, for fastest installation, and simple reconfiguration to meet unexpected site conditions.

T-Guide

Traditional steel arbor guide system.

A-Guide

Heavy duty aluminum arbor guide system.

Lattice Track

Wall mounted arbor guide track for a single arbor.

Outrigger Brackets

Supports outrigger battens used above the locking rail for index lights or temporary scenery storage.

Index Lights

Strip lights to illuminate the locking rail. One and two circuit units available.
