

# Manual Rigging

## Manual Rigging Product Divisions:

### Blocks

Blocks (pulleys) for use with manual and motorized rigging systems. Head blocks, loft blocks, mule blocks, floor blocks, and accessories.

### Arbors & Counterweights

Arbors hold the counterweight that balances the load on the batten

### Rope Locks

A hand operated clamp that holds the hand (operating) line to hold the unbalanced load in a set.

### Locking Rails

Locking rails to carry the rope locks, index strip lights, and outrigger brackets.

## **Guide Systems**

Arbor guide systems, A-Guide, J-Guide, T-Guide (T-Bar).
