

**Mule Block (Shown with  
Optional Clew Bracket)  
5C3-40812C**

- Used to divert the cables around obstructions or change direction of travel.
- ASTM Class 30 grey iron sheave.
- Sealed precision ball bearings or tapered roller bearings.
- 7 gauge side plates fully enclose sheave.
- Base made from 8" structural steel channel.
- Four spacers between the side plates prevent cables from escaping the sheave grooves.
- **Mule blocks must be welded in place after final alignment** – consult the factory for specific information.
