

**Multiline II Synthetic Rope**  
**028-750M**

- A popular replacement for manila and other ropes used backstage.
- Conventional, three-strand construction for a familiar feel and strong grip.
- Minimal stretch for easy use.
- Length does not change with temperature or humidity, so floor block readjustment is not necessary.
- Breaking strength is more than twice that of manila rope.
- Sold in 600' and 1200' rolls.
- Other sizes and colors available on special order.
- For 3/4" rope use SureGrip®.
