

**Outrigger Bracket  
015-96**

- Used to support outrigger battens in front of the T-Bar wall.
- Use 015-67R Pipe Batten with these brackets to form the outrigger.
- Outrigger battens are used to support index lights or act as a scenery bumper.
- Use on 10' maximum centers.
- Optional 6" x 6" wall plate with 12" sleeve available to attach batten end to a wall.
- Brackets typically attach to J-Guide (T-Guide) wall battens.
